

Tom is doing great. He will be back at work on Monday. God is so awesome. He has provided doctors with the technology to find problems like this even before there are symptoms so they can be taken care of well in advance. Thanks again for all the prayers

Also, Truman, Becky, Samantha and Trey started their 40/40 training this week. They will be in Zambia for 6 weeks. From what we understand, this is very intensive training. They will be camping in the bush, living in tents for several days, staying with African families to learn more about African culture and tradition. They are with a group and are safe, but it's certainly not the lifestyle they are accustomed to living. They do not have access to any technology during this time (the only electronic item they could take was a camera). We spoke with him on Monday for about an hour, and that will be the last time we talk to him until after Thanksgiving. Please pray for their safety and comfort and peace during this transition time. Also pray for our family here that we have a peace and comfort in the absence of communication with them.

Thanks
Tammie
